

CHORE-TRONICS® 3 Breeder Package

Next Generation Breeder Controller with Exciting Added Features!

Let's grow together®

CHORE-TRONICS® 3 Breeder Control

Includes nearly all the features of Chore-Time's highly successful and reliable CHORE-TRONICS® 3 Broiler House Controller, plus extra capabilities especially for breeder production. Recently added or enhanced features include:

- **Expanded** ability to turn on extra tunnel fans during and after feeding times.
- **Up to six** separate filling and feeding clocks for male and female birds.
- Can deliver a pre-determined amount of feed from a dump scale, mechanical beam scale **or load cell under the bin.**
- Expanded management screens to track egg data, **or count automatically with optional egg counter.**
- Weekly summaries in history screens, **with up to 70 weeks of history.**
- **Compatible with CHORE-TRONICS® Mobile App, BROADCASTER™ Alert System** and C-CENTRAL™ Software.

Features also included in Chore-Time's CHORE-TRONICS® 3 Breeder House Controller:

- Ability to control egg storage room environment (heating, cooling and humidity).
- Customizable feeding programs for every-other-day, 5-and-2, etc.
- Water clock with feeding day and non-feeding day schedules.
- Winch clock to lower male feeder.
- Special lighting program for feeding time.

CHORE-TRONICS® 3 Breeder Control includes extra capabilities especially for breeder production.

CHORE-TIME® Breeder Scale

- Specifically designed for pullet and breeder applications.
- Birds move across the scale on their own, reducing labor requirements and biosecurity risk of manual weighing.
- Scale features highly accurate hanging platforms. Anti-swing for slats protects birds.
- Control displays data such as expected weight, average weight, number of weights, growth, uniformity, weight histograms, etc.
- Dependable hardware technology, software algorithms and also C-Central™ Software ready.

Count on Chore-Time for experience, reliability, performance and confidence.

Up to eight scale inputs allows for multiple house connection. Each weighing platform can weigh birds in two different weight ranges (males and females).

See diagram on reverse.
